

ACH POSITIVE PAY

PREVENT FRAUDULENT ACH TRANSACTIONS

ACH Positive Pay is an automated verification system that monitors ACH transactions presented for payment. Transactions that do not meet the rules you specify are categorized as exceptions. You receive a notification to review the ACH transaction and decide if it should be paid or returned. To use ACH Positive Pay, you must be enrolled in Online Banking.

More Control

Set up pre-determined ACH rules.

Online Managerial Reporting

Generate reports on ACH payment history.

Visual Verification

Research paid or returned ACH payments.

One-touch Action Prompts

Select Pay or Return ACH transactions. ACH rules can be added directly from the Quick Exception screen. If no decision is made by the cutoff time, the account is protected by returning the ACH.

Set up ACH authorization rules

View ACH authorization rules report

The screenshot shows the 'ACH Transaction Search' form. It includes fields for Client (XYZ INC TEST), Account Name (XYZ INC TEST), Start and End dates, Paid Date, Input Date, Transaction Amount, SEC Code (dropdown menu), Company ID, and Transaction Description. There are also dropdown menus for Transaction Status, Decision, and Reason. A 'Produce Report' button is at the bottom. A note at the bottom states: 'Note: Transaction history is retained within the system for 90 days after an item has paid.'

Search ACH Transaction History

- Name of payee
- Transaction amount
- Transaction status
